

New Project Information

The City of Rocklin is processing the below referenced application(s) for project approval. The request is now being reviewed for compliance with the requirements and regulations of relevant City, State, and Federal agencies, and Utility providers. Once any issues have been resolved a hearing date will be set and public notice provided to alert neighbors and interested parties of the hearing date, availability of project information, the opportunity to comment on the project.

Application Received: February 16, 2023

Project Name and Requested Approvals:

Greenbrae Parcel Split

- Tentative Parcel Map (DL2023-0002)
- Environmental (ENV2023-0004)

Staff Description of Project:

Request for approval of a Tentative Parcel Map (DL2023-0002) to subdivide one (1) approximately 17.8-acre parcel into two (2) parcels. Resultant Parcel 1 would be 7.33 acres and Parcel 2 would be 10.44 acres. No development is proposed as part of this project.

In 2021, a request for approval of a Tentative Parcel Map (DL2021-0001) to split this property into three (3) parcels was denied by the Planning Commission and an appeal of the project was denied by the City Council.

Location:

The project site is located at 4600 Greenbrae Road. The Assessor's Parcel Number (APN) is 046-030-059.

Land Use Designation(s)/Zoning:

The property is designated Low Density Residential (LDR) and Recreation-Conservation (R-C) in the Rocklin General Plan is zoned Planned Development Residential, 1.5 Dwelling Units Per Acre (PD-1.5) and Open Area (OA).

This project **does** / **XX does not** require modification or change of the land use designations and regulations currently applicable to the project site.

Compliance with the California Environmental Quality Act:

A preliminary review of this project pursuant to the California Environmental Quality Act (CEQA) has tentatively identified a Categorical Exemption (ENV2023-0004) as the appropriate level of environmental review for this project.

Applicant & Property Owner:

The property owner and applicant is Andrey Petrin.

Pre-Application Meeting Requirements:
It is required that a pre-application meeting be held with a Staff Planner prior to submitting most applications for planning entitlements and permits. The purpose of the pre-application meeting is to expedite application processing by enabling staff to work with the applicant to assure that the officially submitted application materials are in the proper format and that the applicant understands the City of Rocklin's goals, policies, and ordinances that may affect the project. A copy of these and other planning provisions is available at the applicant's request.
Generally, two sets of preliminary plans and a written description of the proposed project should be brought with the applicant to the pre-application meeting. To schedule this meeting, please contact a Staff Planner at the Rocklin Community Development Department by calling (916) 625-5160.

NOTIFICATION OF OWNERS OF MINERAL RIGHTS

Government Code section 6509a(a)(2) states that if the Subdivision Map Act requires notice to be given pursuant to Section 65091, in addition to noticing the surrounding property owners, notice must also be given to anyone who has filed with the County recorder's office a "notice of intent to preserve the mineral right pursuant to Section 883.230 of the Civil Code" on the subject property.

Therefore, mailing labels must be provided with this application for any owner of a mineral right pertaining to the subject real property who has recorded a notice of intent to preserve the mineral right pursuant to Section 883.230 of the Civil Code (Subdivision Map Act Section 65091(a)(2)).

See page 24 of this application for instructions on how to submit mailing labels.

Section 65091(a)(2)

"(2) When the Subdivision Map Act (Div. d 9commencing with Section 66410)) requires notice of a public hearing to be given pursuant to this section, notice shall also be given to any owner of a mineral right pertaining to the subject property who has recorded a notice of intent to preserve the mineral right pursuant to Section 883.230 of the Civil Code."

There **are** **are not** (circle one) owner(s) of record of preserved mineral rights on the subject property and I, Andrey Petrin, the applicant or applicant's representative, **have /** **have not** (circle one) provided the name and mailing address of record for any and all owners of mineral rights pursuant to Section 883.230 of the Civil Code.

**STATE OF CALIFORNIA
DEPARTMENT OF FISH AND GAME
FILING FEES**

In 1990, the State adopted a fee pursuant to AB 3158 for the review of environmental documentation by the State Department of Fish and Game. Subsequently, in 1991, the fees were challenged. Then, in June 1995, the Department of Fish and Game instructed the jurisdictions to stop collecting fees. Following a great deal of court action and in a memorandum dated February 26, 1996, the State Clearinghouse, Office of Planning and Research, stated that the fees must again be collected.

On September 29, 2006, Senate Bill 1535 was passed increasing the amounts of filing fees collected by the Department, and requires the Department to adjust the fees annually pursuant to Fish and Game Code Section 713.

As of January 1, 2020, State law requires all applicants who have a Notice of Determination filed for a Negative Declaration to pay a \$2,406.75 fee and those with a Notice of Determination for an Environmental Impact Report to pay a \$3,343.25 fee. Both types must pay an additional \$50.00 administrative fee making the total fees \$2,456.75 and \$3,393.25 respectively. Applicants whose projects require the filing of a Notice of Exemption will need to pay a \$50.00 administrative fee. The City will notify each applicant which of the fees must be paid.

PLEASE NOTE: Effective January 1, 2008, the fee exemption for projects determined to have a *De Minimis Impact Finding* has been eliminated. (Section 711.4 Fish and Game Code).

The Fish and Game filing fee must be paid prior to the filing of the Notice of Determination with the County Clerk. Since the CEQA law requires a Notice of Determination to be filed with the County within 5 days of an action by the City, all applicants must remit to the City the necessary fee amount no later than the day of the final scheduled public hearing for the proposed project.

PLEASE MAKE ALL CHECKS PAYABLE TO PLACER COUNTY.

If you have any questions regarding this matter, please do not hesitate to contact the Planning Department at (916) 625-5160. Upon review of the above, please sign and return this document with your application.

I, Andrey Petrin, the applicant or applicant's representative, have read the information above and understand its meaning.

HAZARDOUS WASTE AND SUBSTANCES STATEMENT

Pursuant to California Government Code Section 56962.5, I have consulted the Hazardous Waste and Substances Sites List (Cortese List), consolidated by the State of California, Environmental Protection Agency and find that;

The project, including any alternatives, _____ is, is not (check which applies) located on a site which is included on the Hazardous Waste and Substances Sites List (Cortese List). If on the list, provide the following information:

Regulatory identification number: _____ Date of list: _____

Type of problem: _____

I declare under penalty of perjury of the laws of the State of California that the foregoing is true and correct.

Dated: 02/16/2023 _____

Applicant:  _____

Applicants can verify this information by reviewing the Hazardous Waste and Substances Sites List (Cortese List), available for review at the City of Rocklin Planning Department counter, or at the California Department of Toxic Substance Control web site:
<http://www.calepa.ca.gov/SiteCleanup/CorteseList/default.htm>

MITIGATION FOR AIR QUALITY IMPACTS

The US Environmental Protection Agency (EPA) and the California Air Resources Board (CARB) have established air quality standards, referred to as the National Ambient Air Quality Standards (NAAQS) and the State Ambient Air Quality Standards (SAAQS) respectively. The federal Clean Air Act and State Clean Air Act both require that areas in violation of the ambient air quality standards adopt strategies to attain these standards. The Placer County Air Pollution Control District (APCD) has primary responsibility for planning and maintenance and/or attainment of air quality standards within Placer County. California is divided into 15 air basins for the purpose of monitoring air quality. Placer County is included in the Sacramento Valley Air Basin. Areas may be classified as attainment, non-attainment, or unclassified with regard to the adopted standards. The unclassified designation is assigned in cases where monitoring data is insufficient to make a definitive determination. Under the federal standards, all of Placer County, including Rocklin, is designated as non-attainment for ozone. All other pollutants are designated unclassified in Rocklin. Under the state standards, South Placer, including Rocklin, is designated as non attainment for ozone and PM10 and unclassified for hydrogen sulfide and visibility reducing particulate.

The project would have the following short-term construction impacts, if not mitigated:

- a. Construction activities, including grading, would generate a variety of pollutants, the most significant of which would be dust (PM10). This would exacerbate the existing PM10 non attainment condition if not mitigated.
- b. Construction equipment would produce short-term combustion emissions, and asphalt materials used for streets and driveways would produce pollutants during curing.

The mitigation measures listed below will reduce the short term impacts to less-than-significant. In the long-term, vehicle trips to and from the project site would generate Carbon Monoxide and ozone precursor emissions, thereby contributing to the non-attainment status of the local air basin. These incremental and cumulative adverse air quality impacts cannot be completely mitigated. However, these impacts were anticipated by the City of Rocklin General Plan, and were addressed through the 1991 Rocklin General Plan EIR and the North Rocklin Circulation and Traffic Study. Findings of overriding significance were adopted for the unmitigatable and unavoidable significant air quality impacts.

Therefore, I, as the applicant for the proposed project, agree that the mitigation measures listed below are incorporated as a part of my project description in order to mitigate for the short term impacts.

MITIGATION FOR AIR QUALITY IMPACTS (CONT.)

MITIGATIONS

1. The project shall conform with the requirements of the Placer County APCD.
2. Prior to commencement of grading, the applicant shall submit a dust control plan for approval by the City Engineer and the Placer County Air Pollution Control District. The plans shall specify measures to reduce dust pollution during all phases of construction.
3. Traffic speeds on all unpaved road surfaces shall be posted at 25 m.p.h. or less.
4. All grading operations shall be suspended when wind speeds exceed 25 m.p.h.
5. All trucks leaving the site shall be washed off to eliminate dust and debris.
6. All construction equipment shall be maintained in clean condition.
7. All exposed surfaces shall be revegetated as quickly as feasible.
8. If fill dirt is brought to the construction site, tarps or soil stabilizers shall be placed on the dirt piles to minimize dust problems.
9. Apply water or dust palliatives on all exposed earth surfaces as necessary to control dust. Construction contracts shall include dust control treatment as frequently as necessary to minimize dust.
10. Construction equipment shall be properly maintained and tuned.
11. Utilize low emission mobile construction equipment where possible.
12. Open burning of vegetative material is prohibited.

Andrey Petrin

Applicant's Name (printed)

Applicant's Signature

SITE CHARACTERISTICS

- 1. What natural features (trees, rock outcroppings etc.) presently exist on the site?
Native grass, brush and some trees

- 2. What are the surrounding land uses?
East MDR West LDR North MDR South R-C/LDR

- 3. Is the project proposed on land which contains fill or a slope of 10% or more? Yes

- 4. Are there any existing erosion problems? _____

- 5. Is the site on expansive soils (as defined in Table 18 of the UBC) or immediately adjoining an area subject to slides, liquefaction, slope instability or other related hazards? NO
If so, describe in detail, or refer to attached soils report.

- 6. Grading, excavating or filling activities - Quantity of cubic yards to be:
 - a. Moved within the site N/A
 - b. Deposited on the site N/A
 - c. Removed from the site N/A
 - Disposal site N/A

- 7. Are there any streams or permanent water courses on the site? _____
Describe Boardman Canal runs at the southern side of the lot.

- 8. Will the proposed project change drainage patterns or the quality of groundwater?
If so explain. If not, why not. No improvements proposed

- 9. Will the project affect any drainage channel, creek, pond or any other water body?
Describe below: No improvements proposed

10. Is any portion of the property located in a flood plain? No
 If so describe _____

11. Are there any jurisdictional wetlands or vernal pools on the site? If so how will they be impacted by the project? No

12. Are there any trees or shrubs on the project site? Yes
 What types? Some blue oaks to the south of canal
 Are any to be removed or transplanted? No
 State the location of transplant site: N/A
 State the number & species to be removed: N/A
13. Will the project affect the habitat of any endangered, threatened, or other special status species?
No

14. Will the project result in any new noise source, or will it place new residents in an area of high traffic noise or noise from any other source? No

15. What type of equipment will be associated with the project during construction?
N/A

 During permanent operation? _____
16. Describe any air pollutants, other than vehicle exhaust, which would be generated by this project, both during and after construction. Dust particulates are considered pollutants.
N/A

17. Will the project produce new sources of dust, ash, smoke, fumes or objectionable odor? If yes, describe the source of the emission, methods to control emissions and means of mitigating those effects on adjacent properties: No

18. Will the project create any new light source, other than street lighting? If yes, describe below:
No

19. Is this property covered by a Williamson Act contract? No

20. Has this property ever been used for agricultural purposes? No If so, for what purpose and when? _____
21. Does the project involve the use of routine transport or disposal of hazardous materials?
No

22. Are there any known mineral resources of value to the region and the residents of the state located on the site? If so, what types? No

23. How close is the nearest school? 0.9 miles away

24. PROPOSED BUILDING CHARACTERISTICS (BOTH RESIDENTIAL AND NON-RESIDENTIAL)

Size of new structure(s) or addition in gross square feet: N/A
 Building height measured from ground to highest point in feet: N/A
 Number of floors/stories: N/A
 Height of other appurtenances (antennas, steeples, mechanical equipment, etc.) measured from ground: N/A
 Project site coverage: Building N/A sq.ft. %
 Landscaping N/A sq.ft. %
 Paving N/A sq.ft. %
 Exterior building materials: N/A
 Exterior building colors: N/A
 Wall and/or fencing material: N/A
 Total number of off-street parking spaces required: N/A Provided: _____
 Total number of bicycle parking spaces: N/A

25. Is there any exposed mechanical equipment associated with the project? NO
 Location and screening method _____

26. RESIDENTIAL PROJECTS

Total lots N/A Total dwelling units _____
 Density/acre _____ Total acreage _____

	Single Family	Two Family	Multi-Family (More than 2 units)
Number of Units			
Size of lot/unit			
Studio			
1 Bedroom			
2 Bedroom			
3 Bedroom			
4+ Bedroom			

27. RETAIL, COMMERCIAL, INDUSTRIAL, INSTITUTIONAL OR OTHER PROJECT

Type of use(s): N/A
 Oriented to: Regional _____ City _____ Neighborhood _____
 Hours of operation: _____
 Total occupancy/Building capacity: _____
 Gross floor area: _____ Number of fixed seats: _____
 Number of employees (total): _____ Employees per shift: _____ Number of Shifts _____
 Number of visitors/customers on site at busiest time (best estimate): _____
 Other occupants (specify): _____

ALL PROJECTS

28. Approximately how many tons of solid waste will the project produce each year? N/A

29. Will the proposed use involve any toxic or hazardous material? N/A
 Is the project site within 2,000 feet of an identified hazardous/toxic site? _____
 Is the project site within 2,000 feet of a school or hospital? _____
 If the project involves any hazardous material, explain: _____

30. How many new residents is the project estimated to generate? N/A _____
31. Will the project generate a demand for additional housing? N/A _____
32. What is the current and estimated number of motor vehicles to arrive at the site as a result of the project? _____
33. Could the project increase traffic hazards to motor vehicles, bicyclists or pedestrians? No
 If yes, explain _____
34. How close is the project to the nearest public park or recreation area? 0.25 miles _____
35. What school districts will be affected by this project? N/A _____
36. Describe energy-efficient features included in the project. N/A

37. Describe how the following services or utilities will be provided:
 Power and Natural Gas N/A _____
 Telephone N/A _____
 Water N/A _____
 Sewer N/A _____
 Storm Drainage N/A _____
 Solid Waste N/A _____
38. Will the project block any vista or view currently enjoyed by the public? N/A _____
39. Are there any known historic or significant building features on or near the site? If so, will the project result in any impact to the building? No _____
40. Are there any archaeological features on the site? No _____ If so, will the project result in any impact to these features? _____
