

Adopt-a-Creek

Healthy Waterways Program

The City of Rocklin partners with businesses, clubs, families, residents, schools, and service organizations to keep our creeks from becoming overwhelmed by pollution.

The health of Rocklin creeks and waterways is important to the quality of life enjoyed in the community. The City of Rocklin's Adopt-a-Creek program will help ensure that local waterways remain clean and healthy for all Rocklin residents.

Adopting a creek is **Fun** and getting started is **Easy!**
